# The Aztec WorkSmart™ Stripping System

## Experience the productivity of propane.

The Aztec WorkSmart™ System is the fastest way to strip and re-finish Vinyl Composite Tile (VCT) floors.

It is the only system designed to empower as few as 3 people to strip up to 7 layers of floor finish at 15,000 sqft/hr.

The 4-step system allows you to apply stripper 3x faster, strip 10x faster and retrieve spent solution in half the time versus traditional methods.

## The Sidewinder

Propane Powered Floor Stripper

The Sidewinder's solid steel construction, German engineered centrifugal clutch, floating brush drive and propane powered engine ensure that it is both an incredibly powerful and durable machine. The planetary action and grit-impregnated nylon brushes rip quickly through old finish without damaging VCT floors.

Planetary Rotation Brush Drive

### FAST:

Strips 15,000 sqft/hr or scrubs 30,000 sqft/hr with a 30" path and brush speed up to 1,150 RPM. That's 1½ times faster than the nearest competitor. Three times faster than battery powered.

### AGGRESSIVE:

Unique dual direction scouring action plus heavy brush pressure result in high productivity, with no side torque.

## The Liquidator

Solution Applicator • 36 Gallon Capacity

### ADAPTABLE WIDTH:

Spreader brushes adjust from 52" down to 26" to accommodate obstacles and narrow aisles.

### DEPENDABLE:

Manually powered, no batteries or motor, few moving parts.

### PORTABLE:

Weighs only 90 lbs.

### FAST:

Applies over 50,000 sqft/hr of solution in less than one hour.

## The Guzzler

Solution Retriever • 36 Gallon Capacity

### PROFITABLE:

Up to 50% faster than other conventional recovery methods. Will not create additional foaming.

### DEPENDABLE:

No motors, no batteries or electric cords and few moving parts means less maintenance and repair.

### PORTABLE:

Dry weight of 65 lbs. Compact size, easy to maneuver.

### FAST:

30" squeegee path retrieves solution at a rate of 30,000 sqft/hr. Twice the speed of an automatic.

## The Grand Finale

Floor Finish • Chemical Applicator

### Time and Money Saving Features:

- Portable, Lightweight and Durable
- Adjustable Pressurized Application Flow
- Reduced Chemical Usage by 30%
- Battery Run Time of 5-7 hours
- Up to 35,000 sqft/hr – 50% Faster than Mopping
- 36" Head Assembly
- Micro Fiber Applicator Pad
- Quick and Easy Clean Up
