

Concrete and Terrazzo
Floor System

WORKSMART™ CONCRETE SYSTEM

THE REFRESHER: Multi-Purpose Refreshing Floor System

The Refresher is designed for use on previously polished concrete and terrazzo floors. Hone, polish and burnish concrete and terrazzo floors with diamonds and pads. The Refresher will also strip and scrub VCT floors with strip brushes and pads. Dust control capability; sealed planetary drive with synchronous belt. Drive includes three sets of quick change driver heads.

LOWEST EMISSIONS IN INDUSTRY: GS-42, CARB, CE, EPA & LEED

THE ULTRAGRIND: Concrete and Terrazzo Grinder & Polisher

The UltraGrind planetary, gear-driven concrete and terrazzo grinder and polisher eliminates cords and generators and will handle the toughest of grinding situations with ease. Grinding pressure up to 780lbs (354kg). Telescoping handle, transport wheel and dual vacuum ports allow for UltraVac connection for dust control. Quick change plate system allows for fast switching between metal and resin bond diamonds. Starter and specialty packages available.

LOWEST EMISSIONS IN INDUSTRY: GS-42, CARB, CE, EPA & LEED

THE ULTRAEDGE: Concrete and Terrazzo Edger

The UltraEdge propane edger reaches 3" (8cm) under a 5 1/4" (13cm) high shelf. Weight plates included to adjust head pressure while grinding and polishing. Offset grinding head allows for easy maneuvering in tight areas. Vacuum port allows for UltraVac connection for dust control. Part of the WorkSmart™ cordless concrete and terrazzo grinding, polishing and edging system.

LOWEST EMISSIONS IN INDUSTRY: GS-42, CARB, CE, EPA & LEED

THE ULTRAVAC: Dust Control Vacuum

Dust control vacuum with reinforced fiberglass housing for dust control when grinding, honing and polishing concrete and terrazzo floors. Drop down 9 gallon (34L) dust pan for dust-free, easy cleanup. Includes 20' hose, 4' floor wand and connection kit. Microclean air filter is 99% @ 0.5 microns. Maximum versatility without restriction of cords. Part of the WorkSmart™ cordless concrete and terrazzo grinding, polishing, and edging system.

LOWEST EMISSIONS IN INDUSTRY: GS-42, CARB, CE, EPA & LEED

Daily Floor Maintenance

WORKSMART™ VCT STRIP SYSTEM

WORKSMART™ MAINTENANCE SYSTEM

STEP 1: THE LIQUIDATOR — Apply Strip Solution

The Liquidator lays down strip solution quickly and evenly in a 52" (132cm) path at up to 45,000 sqft/hr (4180m²/h). Hand triggers allow precise control of solution gravity fed from the 36 gallon (136L) solution tank. For smaller areas, the 52" width is easily adjusted down to 26" (66cm) path. Rugged and user-friendly.

STEP 2: THE SIDEWINDER — Propane Stripper

The Sidewinder's unique gimbaled, planetary drive and three 10-inch counter-rotational brushes will strip 7–10 coats of floor finish in a single pass at a slow walk. Up to 15,000 sqft/hr (1393m²/h). That's 10x faster than a corded electric machine and 3x faster than a battery powered machine. Propane powered 18hp 603cc engine meets US Green Building Council LEED IAQ Credit 3.4 Requirement; CE, CARB, and EPA compliant. Available in 24" (61cm) and 30" (76cm).

LOWEST EMISSIONS IN INDUSTRY: GS-42, CARB, CE, EPA & LEED

STEP 3: THE EDGEWINDER — Strip Edges and Under Shelves

The Edgewinder is a propane powered edger that reaches 26" (66cm) to get deep under 4" (10cm) racks and shelving. Strips edges up to 50 linear feet per minute. Propane powered engine meets US Green Building Council LEED IAQ Credit 3.4 Requirement; CE, CARB, and EPA compliant.

STEP 4: THE GUZZLER — Retrieve Strip Solution

The Guzzler is the ultimate in high-speed recovery of scrubbing and stripping solutions. Retrieve up to 30,000 sqft/hr (2787m²/h) at walking speed. The easy to use Guzzler will squeegee a floor at TWICE the speed of the other conventional recovery methods, and will not create additional foaming. The Guzzler costs less to buy than one autoscrubber repair bill.

STEP 5: THE GRAND FINALE

Apply Floor Chemicals

The Grand Finale is a high productivity chemical applicator applying finish quickly and precisely with battery powered pump, machined flow manifold and precision flow controller dial. Reduces chemical usage by 30% and applies finish up to 35,000 sqft/hr (3251m²/h). No puddles, dry spots or streaking thanks to the Grand Finale's battery powered precision release system. Step 5 in the WorkSmart™ VCT Strip System. Also a part of the WorkSmart™ Maintenance System and the WorkSmart™ Concrete System. Available in 24" (61cm) and 36" (92cm) pad width. Optional Spray Wand upgrade for applying densifier, guard, etc.

THE LOWRIDER — Propane Burnisher

American made high productivity burnishers for daily maintenance of VCT, polished concrete and terrazzo floors. Burnish floors up to 33,000 sqft/hr (3065m²/h) with the ultimate high-speed floor burnisher for maintaining VCT, polished concrete and terrazzo floors. Available in 21" (54cm), 24" (61cm) or 27" (69cm) pad sizes, with optional Dust Control or Spray Mist upgrades.

LOWEST EMISSIONS IN INDUSTRY: GS-42, CARB, CE, EPA & LEED

THE PROSCRUB — 20" Battery Autoscrubber

The ProScrub automatic floor scrubber wet scrubs and dry vacuums in one pass. The 20" ProScrub will cover up to 16,000 sqft/hr (1486m²/h) and is inexpensive and exceptionally simple to use and maintain. Features 65 lb (29kg) of scrubbing pressure, 12 gallon (45L) solution tank and 15 gallon (56L) recovery tank.
