

# Equipment for Concrete and Terrazzo Floors

## WORKSMART™ CONCRETE SYSTEM

### THE REFRESHER: Multi-Purpose Refreshing Floor System

High productivity propane multi-purpose machine for polishing, refreshing and burnishing terrazzo and concrete, and stripping VCT tile floors; low oil shut down and safety regulator fuel system. Rugged, gimbaled, planetary-driven system is self-leveling to work smoothly on uneven floors. Synchronous positive drive belt with German centrifugal clutch, metal synchronous drive pulleys, solid-lube bearings and sealed drive unit ensure years of trouble-free usage. Can be used wet or dry and includes 11-gauge extra-heavy transport wheel.

PRODUCTIVITY: Up to 10,000 sqft/hr refreshing and 15,000 sqft/hr stripping

LOWEST EMISSIONS IN THE INDUSTRY - Green Certifications: GS-42, CARB, CE, EPA & LEED

### THE ULTRAGRIND: Concrete and Terrazzo Grinder & Polisher

The UltraGrind planetary, gear-driven concrete and terrazzo grinder and polisher eliminates cords and generators and will handle the toughest of grinding situations with ease. Grinding pressure up to 780lbs (354kg). Telescoping handle, transport wheel and dual vacuum ports allow for UltraVac connection for dust control. Quick change plate system allows for fast switching between metal and resin bond diamonds. Starter and specialty packages available.

LOWEST EMISSIONS IN THE INDUSTRY - Green Certifications: GS-42, CARB, CE, EPA & LEED

### THE ULTRAEDGE: Concrete and Terrazzo Edger

The UltraEdge propane edger reaches 3" (8cm) under a 5 1/4" (13cm) high shelf. Weight plates included to adjust head pressure while grinding and polishing. Offset grinding head allows for easy maneuvering in tight areas. Vacuum port allows for UltraVac connection for dust control. Part of the WorkSmart™ cordless concrete and terrazzo grinding, polishing and edging system.

LOWEST EMISSIONS IN THE INDUSTRY - Green Certifications: GS-42, CARB, CE, EPA & LEED

### THE ULTRAVAC: Dust Control Vacuum

Dust control vacuum with reinforced fiberglass housing for dust control when grinding, honing and polishing concrete and terrazzo floors. Drop down 9 gallon (34L) dust pan for dust-free, easy cleanup. Includes 20' hose, 4' floor wand and connection kit. Microclean air filter is 99% @ 0.5 microns. Maximum versatility without restriction of cords. Part of the WorkSmart™ cordless concrete and terrazzo grinding, polishing, and edging system.

LOWEST EMISSIONS IN THE INDUSTRY - Green Certifications: GS-42, CARB, CE, EPA & LEED

## Equipment for Daily Floor Maintenance

# WORKSMART™ MAINTENANCE SYSTEM

### THE GRAND FINALE: Chemical Applicator

American made high productivity floor chemical applicator applies densifier and guard quickly and precisely with battery powered pump, machined flow manifold and precision flow controller dial. Highly controlled flow reduces chemical usage by up to 30% and labor by 70%. That's 4x faster than a backpack applicator and 10x faster than a mop and bucket. Available in 24" (61cm) and 36" (92cm) head assembly width. Optional Spray Wand upgrade.

PRODUCTIVITY: Up to 35,000 sqft/hr (3251m<sup>2</sup>/h)

### THE LOWRIDER: Burnisher

Propane burnisher with the lowest emissions in the industry. American-made, high-speed propane burnisher. The ultimate propane floor burnisher for maintaining VCT, polished concrete and terrazzo floors. Rugged, solid steel body design, with optional Dust Control or Spray Mist upgrade. Pad sizes available: 21" (54cm), 24" (61cm) or 27" (69cm).

PRODUCTIVITY: Up to 33,000 sqft/hr (3065m<sup>2</sup>/h)

LOWEST EMISSIONS IN THE INDUSTRY  
Green Certifications: GS-42, CARB, CE, EPA & LEED

### THE PROSCRUB: Autoscrubber

High productivity 20" (51cm) autoscrubber designed with the contractor in mind. Simple, rugged, economical, dependable – the ProScrub is hard to break, easy to fix and inexpensive to maintain. Complex scrubbers break easily, are expensive to maintain and hard to learn to use. The 24-volt AGM maintenance free system delivers approximately 3 hours run time when fully charged. With 12 gallon solution tank, 15 gallon recovery tank, stainless steel casters and hardware, 3/4 hp brush motor, 1/2 hp 24 volt vacuum motor, 65 lb head pressure and 30" squeegee.

PRODUCTIVITY: Up to 16,000 sqft/hr (1486m<sup>2</sup>/h)
